

Dear Project Donation Applicant:

Attached hereto you will find the *Next Dollar Foundation Project Donation Application*. This application is to be completed and submitted back to your Area Representative listed on the following page (page 2) for consideration of funding by the Next Dollar Foundation. Your Area Representative will review and make recommendation to the Next Dollar Board of Trustees on potential funding. The deadline for submittal of your application is two weeks prior to the next regular meeting. Regular meeting dates are as follows:

The second Wednesday of: January, April, July and October

For meeting place and time contact Cheryl Lisk at Wells Rural Electric Company (775) 664-2204

The following are guidelines to consider when submitting an application:

1. Is your project located within the service area of Wells Rural Electric Company? If your project is not, it will not be considered for funding.
2. Does your project result in a positive benefit to the community and area, in which it is being proposed? When submitting for funding, keep in mind that any project needs to have a positive impact on the area and/or community on whole in which it is going to occur. Projects that benefit only private parties or individuals will not be funded.
3. Successful projects will be those which combine funding and in-kind resources from multiple participants. The more participation you have, the more resources you will have to draw from and the more stable and broad reaching the project will be for each dollar that is spent.
4. What is the lifespan of the project? Project's that are short in lifespan will not receive a high a recommendation for funding due to the limited resources which the Next Dollar Foundation has to draw from. Projects that are of a long lifespan will receive greater consideration due to the prolonged exposure and benefit those projects will have on related communities and people and thus reaching the goals of the Next Dollar Foundation.
5. The Next Dollar Foundation funds physical projects only. Examples of past projects would be: skate park equipment, play ground equipment, cemetery fencing and signage, historic markers, physical improvements (i.e. sidewalk, bike/pedestrian paths), historic restoration projects supported by State Historic Preservation Offices (SHPO's), charity organization equipment (i.e. washers/dryers), community kiosks/bulletin boards, etc. All projects will be required to provide advertisement on or near the project for its lifetime. Such advertisement must at a minimum be of a permanent constructed nature (i.e. metal or vinyl signage, etc.) and include the following language:

***This project was funded (in part or whole) by the Next Dollar Foundation
Providing a positive impact in your community
Please join us and round-up your electric utility bill
Call any local Wells Rural Electric Office for details***
